ABOUT

ivy+test is a new approach to test preparation as envisioned by IVY's founder, Lisa Speransky, and 20-year Princeton Review veteran, Rick Michalak. We offer expert, one-on-one instruction on all test sections and a proprietary course manual for either the PSAT/SAT or the ACT with test-taking strategies and techniques designed exclusively for IVY+TEST.

Our program boils test preparation down to 3 important factors:

1. **The best instructors**, hand picked and trained by the program's founders.
2. **Test strategies** and material taught in the most efficient way possible so you can learn the test, reach your highest potential score as quickly as possible and then move on with your life!
3. **Mock testing** available every week and included in the price of the tutoring sessions. Students can take a free test every week!
